SHIR LE LONG BIOGRAPHY

Born during the "baby boom" years, Shirley, the middle of three sisters, grew up in a world transitioning from a post war high to the cultural revolution of the 60's. Inheriting, from her mother, a love of travel she and her husband have visited every continent except Antartica. Her first international trip was a prayer journey to China in 1995 as part of the "Praying Through the 10/40 Window" initiative. China was definitely an eye-opening experience for her to the destitution and misery so rampant in the developing world.
